

Business Intelligence Solution for Housing

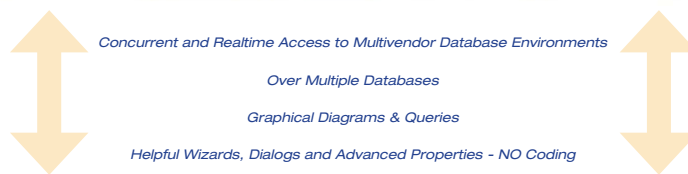

A reporting tool can provide fast, real-time data but can only give meaningful information if it reports across the whole organisation to provide a holistic picture of your organisation.

THINK BEYOND | THINK 6PM

BUSINESS INTELLIGENCE
SOLUTION FOR HOUSING

Create your own:
 - Business Analytics - Business Intelligence - Balanced Scorecards - BPM - Planning & Consolidation Reporting - Data Integration - Dashboards - KPI Management - Event Management - Alert Notifications

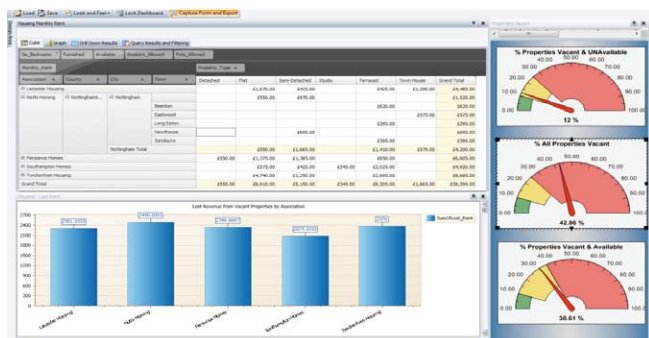

by Connectly Concurrent and Real Time to your Multi Vendor CRM, ERP, SCM, Data Warehouse and other Business Databases

Whilst a Management Information System (MIS) typically provides reports on the data held within the system, a host of data essential to enable you to make better informed decisions is also held within various other systems outside of your MIS such as Finance, HR, IT, Payroll etc. Reporting from various systems separately results in:

- Inaccurate data
- Inability to manipulate your data across systems
- Lack of ownership
- Inflexible, particularly apparent when there were organisational changes
- Hefty costs!

6pm's Business Intelligence solution specifically tailored and new to the Housing market provides a Holistic view of your organisation, combining the data whilst reporting directly from the various data sources in place.

Our Housing Solution offers:

- Real-time and concurrent access to multi-vendor databases
- Easy creation of datamarts minimising the need for expensive intermediary data warehouses and their extensive/expensive IT development
- Multi-dimensional data analysis
- Graphically generated and Customised queries
- Presentation layer with numerous grids (hyper)cubes, graphs, meter panes, dashboards, reports, timelines and schedulers that can be easily customised and enable you to drill down to the information you want
- Horizontal consolidation and collaboration of business intelligence across multiple divisions
- Flexibility. Immediate changes can be made when reporting requirements and or data sources change.

We are solution providers and not product vendors. Our promise - Value Added!

Our experience in the Business Intelligence space coupled with years of IT Consulting enables us to provide you with a solution that caters for your particular needs. Moreover, our solutions are built to enhance your existing IT infrastructure and not to simply replace it!

Reduced total cost of ownership, rapid implementation time, and the ability to regain your independence from expensive, external IT consultants are just some of the benefits of the 6pm Solution that directly affect your bottom line. We also promise a robust solution that will grow with your Business.

IT and relationship experts
